

# DREAMER Day FEST 2022

## Build a Dream to Bring Dreamer Day 2022 to Toronto!

**Windsor, ON** - On October 4 and 5, Build a Dream is partnering with Enbridge Gas Inc. to host Dreamer Day 2022, a celebration in honour of International Day of the Girl.

This will be the non-profit organization's largest ever in-person event, spanning two days, with a gala on Tuesday, October 4, and a festival-style event hosted on Wednesday, October 5. Build a Dream will be welcoming 4,000+ attendees to Toronto, as well as various keynote speakers and panel discussions from different industries, live entertainment, interactive exhibitor booths, and much more. A flag-raising ceremony will kick off the event on October 5. The Dreamer Day flag will fly proudly at the event to ensure that young women and girls dream big every day.

"We are incredibly proud to sponsor this important event," said Michele Harradence, President, Enbridge Gas Inc. "The energy sector is at an exciting inflection point which demands innovation, creativity, and diversity of thought as we move to a cleaner, greener future. By championing diversity, we can bring a fresh and unique perspective to the energy industry, and at Enbridge, we are committed to fostering a community that supports the next generation of female leaders in STEM-based careers."

The event will connect young women and their parents/guardians to female mentors, role models, and industry/community partners, as well as providing hands-on learning opportunities and educational resources. Build a Dream's goal is to encourage these young women to consider career opportunities in male-dominated sectors such as the skilled trades, STEAM (science, technology, engineering, arts, and math), emergency response, leadership, and entrepreneurship.

"We are very excited to host such an important event to highlight that young girls should dream big every day, while also honouring and celebrating International Day of the Girl," stated Nour Hachem Fawaz, President and Founder of Build a Dream. "Working with our presenting sponsor Enbridge, and other generous sponsors, we will be able to offer an exciting day for young girls to hear from women in the industry and learn other important information."
